

*Founder/Sr. Consultant*

Christopher Rosnick, PhD, MPH

[crosnick@ebmconsulting.net](mailto:crosnick@ebmconsulting.net)

With a robust academic background and extensive training in statistical analysis, Dr. Rosnick brings a wealth of expertise to our team. Specializing in cognitive aging and stress research, he is proficient in regression-based analyses, multivariate models, and mediation techniques. As an educator, Dr. Rosnick taught undergraduate and graduate courses in research methods and statistics, while overseeing a stress and cognition lab. His transition to business intelligence saw him quickly mastering SQL and COGNOS, becoming a key contributor to module creation and report generation. Driven by a passion for learning, he continues to explore new tools and technologies, eagerly awaiting the opportunity to leverage statistical software for enhanced analytical insights. With a dedication to excellence and a thirst for innovation, Dr. Rosnick is a valuable asset to our team, driving impactful statistical analysis and business intelligence solutions.
